Arthritis and Rheumatism

Official Journal of the American Rheumatism Association

CONTENTS

No. 1

The Kidney in Rheumatoid Arthritis: Studies by Renal Biopsy <i>Victor E. Pollak, Conrad L. Pirani, Irving E. Steck and Robert M. Kark</i>	1
Rheumatoid Factors in Patients with Silicosis with Round Nodular Fibrosis of the Lung in the Absence of Rheumatoid Arthritis. With a Note on the Failure to Induce Such Factors in Animals <i>Walter Schroeder, Edward C. Franklin and Currier McEwen</i>	10
A Critical Evaluation of the Diagnostic Features of the Feet in Rheumatoid Arthritis..... <i>John J. Calabro</i>	19
Chloroquine and Hydroxychloroquine Therapy in Rheumatoid Arthritis <i>Edward Scull</i>	30
Vitallium Mold Arthroplasty of the Hip in Rheumatoid Arthritis <i>L. Solomon and O. E. Aufranc</i>	37
Comparative Studies of Serologic Tests for Rheumatoid Disease: I. A Comparison of a Latex Test and Two Erythrocyte Agglutination Tests in a Random Population Sample <i>J. Ball, R. De Graaff, H. A. Valkenburg and F. Westendorp Boerma</i>	55
II. A Comparison of the Bentonite Flocculation Test and the Sensitized Sheep Cell Agglutination Test <i>J. Ball, K. J. Bloch, T. A. Burch, J. H. Kellgren, J. S. Lawrence and V. Tsigalidou</i>	61
The Characteristics of Human Synovial Tissue as Seen with the Electron Microscope..... <i>William H. Coulter</i>	70
Studies on Ochronosis. I. The Distribution of Homogentisic Acid in Guinea Pigs <i>Bert N. La Du, William M. O'Brien and Vincent G. Zannoni</i>	81
Historical Essay: An Autopathography of Rheumatoid Arthritis (From the Journals of David Douglas).. <i>Edward Shapiro and Millie Shapiro</i>	88
Current Methods of Treatment: Osteoarthritis of the Knee <i>Paul J. Vignos, Jr.</i>	95
Obituary: Anibal Ruiz Moreno 1907-1960.....	99
American Rheumatism Association: Proceedings of the Eighth Interim Scientific Session, December 1961	101
A.R.A. News.....	128

No. 2

A Family Study of Rheumatoid (Ankylosing) Spondylitis <i>Irving Karten, Domenick DiTata, Currier McEwen and Martin Tanner</i>	131
Hyperuricemia in a Male Filipino Population <i>John L. Decker, James J. Lane, Jr. and William E. Reynolds</i>	144
Corticosteroid Therapy of Rheumatoid Arthritis Supplemented with Methandrostenolone..... <i>Glenn M. Clark and David Mills</i>	156
The Pathogenesis of Mycoplasmal (PPLO) Arthritis in Rats <i>John R. Ward and Russell S. Jones</i>	163
Synovial Fluid Lipids in Rheumatoid and Osteoarthritis <i>A. C. Chung, J. R. Shanahan and E. M. Brown, Jr.</i>	176
Historical Essay: The Visceral Manifestations of Scleroderma <i>Marvin A. Sackner</i>	184
Current Comment:	
The Lesions of Reiter's Syndrome..... <i>J. Peter Kulka</i>	195
Reiter's Syndrome Re-evaluated..... <i>Howard J. Weinberger</i>	202
Current Methods of Treatment: Juvenile Rheumatoid Arthritis <i>William M. Gibson</i>	211
Discussions: <i>Albert W. Grokoest</i>	215
<i>Carroll B. Larson</i>	216
A.R.A. News	218

No. 3

An Experimental Model of Calcareous Subdeltoid Bursitis Induced by Calciophylaxis..... <i>Hans Selye, Giovanni Gentile and René Veilleux</i>	219
Capillary Circulation in the Joint Capsule of the Rabbit's Knee: A Vital Microscopic Study.... <i>Jörgen Lindström and Per-Ingvar Branemark</i>	226
Articular Manifestations in Primary Hyperparathyroidism <i>Nathan J. Zvaifler, William E. Reece and Roger L. Black</i>	237
High Dosage Steroid Therapy for Systemic Lupus Erythematosus <i>Edmund L. Dubois</i>	250
Tietze's Syndrome: Report of Two Cases and Review of the Literature <i>Gerald S. Levey and John J. Calabro</i>	261
Current Comment: The Heberden Society..... <i>W. S. C. Copeman</i>	270
Current Methods of Treatment: The Painful Shoulder <i>Theodore B. Bayles</i>	272
Discussions: <i>Otto Steinbrocker</i>	274
<i>Robert B. Duthie</i>	275
Book Reviews	278
Correspondence	280
American Rheumatism Association:	
Papers Submitted to the Annual Meeting, June 1962.....	281

No. 4

Studies on the Gm Factors: Comparison of the Agglutinators in Serum from Patients with Rheumatoid Arthritis and in Serum from Healthy Donors..... <i>Arthur G. Steinberg</i>	331
--	-----

A Comparative Roentgenologic Study of Rheumatoid Arthritis and Rheumatoid (Ankylosing) Spondylitis	
<i>Nihat Dilsen, Currier McEwen, Maxwell Poppel, William J. Gersh, Dominick DiTata and Philip Carmel</i>	341
Rheumatoid Pleuritis	<i>George S. Schools and William M. Mikkelsen</i> 369
Rubella Arthritis and Rheumatoid Arthritis	<i>Thomas G. Kantor and Martin Tanner</i> 378
Long Term Uricosuric Therapy in Gout	<i>George R. Thompson, Ivan F. Duff, William D. Robinson, William M. Mikkelsen and Henrique Galindez</i> 384
Influence of Griseofulvin upon Acute Gouty Arthritis	<i>Roberte R. Slonim, David S. Howell and Harvey E. Brown, Jr.</i> 397
Brief Reports:	
Latex Fixation Test with Dried Rheumatoid Blood	<i>Felix Milgrom and John Bentley</i> 405
Fluorescent Spot Test for Anti-nuclear Antibodies . . .	<i>George J. Friou</i> 407
Acid Phosphatase in Human Synovial Fluid	<i>Carol Smith and David Hamerman</i> 411
Current Comment: New Drugs in Rheumatic Disease . . .	<i>Glenn M. Clark</i> 415
Current Methods of Treatment:	
Hand Surgery in Rheumatoid Arthritis	<i>Leonard Marmor</i> 419
Discussions: <i>Adrian E. Flatt</i>	424
<i>L. H. Paradies</i>	425
Presidential Address to the American Rheumatism Association: The Researchers, Practitioners, and Teachers of Rheumatology	<i>Joseph Lee Hollander</i> 428
A.R.A. News	433
Book Reviews	436

No. 5

Trace Metal Composition of Synovial Fluid from Patients with Rheumatoid Arthritis	<i>William Niedermeier, Ellis E. Creitz and Howard L. Holley</i> 439
Statistical Study of Variation in Systemic and Articular Indexes	<i>John Lansbury, Howard N. Baier and Stewart McCracken</i> 445
Zoxazolamine as a Uricosuric Agent. II. Clinical Evaluation in the Treatment of Gout	<i>Elizabeth B. Reed</i> 457
Chronic Arthritis with Splenomegaly and Leukopenia	<i>Charles W. Denko and Charles W. Zumpft</i> 478
Lupus Erythematosus and Avascular Bone Necrosis: A Clinical Study of Three Cases and Review of the Literature	<i>Jan K. Siemsen, Jack Brook and Lester Meister</i> 492
Hydroxychloroquine Sulfate ("Plaquenil") in Treatment of Rheumatoid Arthritis	<i>E. B. D. Hamilton and J. T. Scott</i> 502
Brief Report: The Anti-inflammatory Effect of Salicylates in Poly-myositis	<i>G. R. G. Monif and Charles Ragan</i> 513
Current Comment: Lupus Nephritis . . .	<i>James Raitt and Halsted Holman</i> 517

Current Methods of Treatment: Management of Systemic Lupus Erythematosus.....	William D. Robinson	521
Discussions: Robert M. Kark and Victor E. Pollak.....		524
A. McGehee Harvey.....		528
A.R.A. News		529

No. 6

The Genetics of Degenerative Joint Disease in Mice		
Leon Sokoloff, Lyman B. Crittenden, Richard S. Yamamoto and George E. Jay, Jr.		531
Studies on Ochronosis. II. Studies on Benzoquinoneacetic Acid, A Probable Intermediate in the Connective Tissue Pigmentation of Alcaptonuria		
Vincent G. Zannoni, Stephen E. Malawista and Bert N. La Du		547
Studies on Adjuvant-induced Polyarthritis in Rats. I. Adjuvant Composition, Route of Injection, and Removal of Depot Site		
John R. Ward and Russell S. Jones		557
The Occurrence of Rheumatoid Factor and Other Abnormalities in Families of Patients with Agammaglobulinemia		
Hugh Fudenberg, James L. German, III and Henry G. Kunkel		565
Synovial Fluid Lipids in Normal Individuals and Patients with Rheumatoid Arthritis.....	Giles G. Bole	589
The Effect of Hemodialysis on Acute Gouty Arthritis		
Howard Duncan, Walter Elliott, David B. Horn, David N. S. Kerr, Derek T. Pearson and Alan M. Robson		602
Poem—Arthritis Is a Mean Disease.....	Stephen Vincent Benet	608
Historical Essay—A Wit and His Gout: The Reverend Sydney Smith		
Stanley L. Wallace		610
Current Comment: The Old and New Concepts of Acute Gouty Arthritis		
J. E. Seegmiller and R. Rodney Howell		616
Current Methods of Treatment: Gout.....	Richard H. Freyberg	624
Discussions: Howard C. Coggeshall.....		629
Charley J. Smyth.....		630
American Rheumatism Association:		
Proceedings of the Ninth Interim Scientific Session, December 1962		634
President's Message.....	Ephraim P. Engleman	668
Book Review		670

INDEX OF AUTHORS

- Aufranc, O. E., 37
 Baier, H. N., 445
 Ball, J., 55, 61
 Bayles, T. B., 272

INDEX OF SUBJECTS

(Page numbers in *italics* refer to abstracts)

- Acetylsalicylic acid. *See* Salicylates
- Acetizoate sodium, binding by serum in
 rheumatic disease, 297, 316
- Adenosine triphosphate biosynthesis, in
 cartilage, 107
- Adjuvant-induced arthritis, 125, 163-173,
 557-563
 and bacterial lipopolysaccharides, 127
 and hypersensitivity, 664
 modifying factors, 654
 morphogenesis of, 113
 tissue distribution of mycobacteria, 650
- Adrenal gland
 autoimmunity induction, 636
 steroids. *See* Steroid therapy
- Adrenalectomy, serum protein and muco-
 proteins after, 105
- Adroyd therapy, 417
- Aged, sera of, globulins in, 110
- Agglutination tests for rheumatoid disease,
 57, 122
 latex fixation. *See* Latex tests
 sheep cell test, 57, 61-68, 115, 284
- Agglutinators in serum, studies of, 331-339
- Aging of tendons, and joint stiffness, 644
- Albumin, serum. *See* Protein
- Alcaptonuria, and ochronosis, 81-86, 547-
 556
- Aldolase, in synovial fluid, 328
- Alphadrol therapy, 415
- Aluminum, in synovial fluid, 442
- American Rheumatism Association
 Chicago postgraduate seminar, 218
 continental congresses, 434
 Eighth Interim Session, 128
 Engleman as new president, 433
 fellowships, 435
 film available, 129
 new elected officers, 433
 Ninth Interim Session, 634-668
 postgraduate course, 129, 218
 presidential addresses, 428-431, 668
 proceedings of annual meeting, 281-330
 publications available, 128
 Richmond interim session, 434
 scientific sessions, 101-127
- Amethopterin, in psoriatic and rheumatoid
 arthritis, 312
- Amino acids
 metabolism in rheumatoid arthritis and
 spondylitis, 635
 and uric acid production in gout, 113

- Amopyroquin, in rheumatoid arthritis, 282
- Amyloid fibrils, and gamma globulin, 653
- Amyloidosis
- in rheumatoid arthritis, 4
 - spontaneous, in mice, 125
 - T-1824 disappearance rate in, 288
- Anadrol therapy, 417
- Antibodies
- anti-gamma globulin, 122, 657
 - anti-nuclear, 407-409, 636, 640
 - autoantibody development, 103
 - to collagen, 119
 - dissociation of antigen-antibody complexes, 637
 - enzyme activity and complement inhibition, 642
 - to enzyme, specificity of, 106
 - fragments, and nephrotoxic nephritis, 661
 - in gonococcal arthritis, 649
 - heart, circulating, in rheumatic fever, 301
 - to hyaluronate protein, 319
 - to mitochondria, and electron transport, 642
 - protein and carbohydrate biosynthetic mechanisms, 322
 - skin sensitizing, in Sjogren's syndrome, 638
- Anticonvulsants, lupus erythematosus after, 303
- Antigen-antibody complexes
- dissociation of, 637
 - reaction with rheumatoid factor, 101
- Antimalarial therapy, 416
- ocular findings in, 647
 - See also* Chloroquine
- Anturane
- effects on phenolsulfonphthalein excretion tests, 310
 - long-term, in gout, 384-395, 417, 628
- Apophyseal joints, in ankylosing spondylitis and rheumatoid arthritis, 351
- Arteritis
- mesenteric, with rheumatoid arthritis, 311
 - serologic findings in, 65
- Arthritis
- acute initial, 283
 - adjuvant. *See* Adjuvant-induced arthritis
 - calcium phosphate crystals in synovial fluid, 116
 - climate affecting, 329
 - gonorrheal, 298, 649
 - gout-like, renal failure with, hemodialysis in, 287
 - gouty. *See* Gouty arthritis
 - in Haida Indians, 654
 - immunoallergic, 124, 662
 - indeterminate polyarthritis, serologic findings in, 65
 - intractable pain of, surgery in, 648
 - juvenile. *See* Rheumatoid arthritis, juvenile
 - monarticular, chronic, 315
 - and obesity, 325
 - osteoarthritis. *See* Osteoarthritis
 - patient's attitude and knowledge of, 643
 - rheumatoid. *See* Rheumatoid arthritis
 - rubella with, 378-383
 - splenomegaly and leukopenia with, 478-491
 - ulcerative colitis with, 318
- Arthrodesis, of wrist, 290
- Arthroplasty of hip, in rheumatoid arthritis, 37-54, 285
- Articular conditions. *See* Joints
- Ascorbic acid, in rheumatoid synovial fluid, 634
- Bacterial lipopolysaccharides, and arthritis development, 127
- See also* Adjuvant-induced arthritis
- Barium, in synovial fluid, 442
- Bendroflumethiazide, in rheumatoid arthritis, 281
- Benemid
- effects on phenolsulfonphthalein excretion tests, 310
 - in gout, 285, 384-395, 417, 627
- Benet, Stephen Vincent, 608-609
- Bentonite flocculation test for rheumatoid disease, 61-68
- Benzoquinoneacetic acid studies, in ochronosis, 547-556
- Beryllium disease, and rheumatoid arthritis, 299
- Betamethasone therapy, 415
- Biopsies, cutaneous and synovial, microvascular lesions in, 116
- Bleeding, from salicylates, and gastric mucosa, 329
- Bone
- matrix formation in osteoporosis of disease, 119
 - necrosis, avascular, and lupus erythematosus, 492-500
- Book reviews
- Bee Venom (*Broadman*), 670
 - Diseases of the Hip, Knee and Ankle Joints and Their Treatment (*Thomas*), 436
 - Immunodiffusion (*Crowle*), 278

Book reviews—(Continued)

- Juvenile Rheumatoid Arthritis (*Grokoest*), 436
- Mechanisms of Antibody Formation (*Holub & Jaroskova*), 278
- Pleuropneumonia-like Organisms (*Klieneberger-Nobel*), 437
- Boots, Ralph H., 608
- Bursitis, 272
 - calcareous subdeltoid, 219–225
- Butazolidin. *See* Phenylbutazone
- Calcaneus lesions in rheumatoid arthritis, 27
- Calcareous subdeltoid bursitis, 219–225
- Calcification, articular, 652
- Calcifying tissues, sulfur maps of, 648
- Calcium oxalate, synovitis from injections, 295
- Calcium phosphate crystals, in synovial fluid, 116
- Calculi, urinary tract, in zoxazolamine therapy, 469–470
- Capillary circulation in joint capsule of knee, 226–235
- p-Carboxybenzenesulfapiethylamide therapy, 417, 628
- Carbohydrate portion of gamma globulin, 322
- Cardiovascular system. *See* Heart; Vascular conditions
- Carpal tunnel syndrome, injection test for, 658
- Cartilage
 - articular, imperfect elasticity of, 294
 - calcification in hyperparathyroidism, 237–248
 - germ-free environment and S³⁵ fixation, 643
 - nucleoside triphosphate biosynthesis in, 107
 - osteoarthritic, metabolism of polysaccharides in, 639
- Cataracts
 - in rheumatoid arthritis, 302, 307
 - after steroid therapy, 649
- Celestone therapy, 415
- Cell membrane, synovial, 72
- Cephalin, in synovial fluid, 178
- Cervical spine, rheumatoid arthritis of, 637
- Cesium, in synovial fluid, 442
- Charcot-like arthropathy, after intra-articular hydrocortisone, 659
- Chloroquine
 - inhibiting DNA activity, 660
 - metabolism of, 330
 - ocular findings after, 318, 647, 667
 - reaction with mercaptide anion, 297
 - in rheumatoid arthritis, 30–36, 118, 416
 - juvenile, 213
 - and sulfhydryl disulfide interchange, 645
- Chlorothiazides, and zoxazolamine uricosuria, 467
- Cholesterol, in synovial fluid, 178, 589–599
- Chondroitin sulfate, binding to proteins, 115
- Chorioretinopathy, from chloroquine, 318
- Chromium, in synovial fluid, 442
- Chromosomes, in spondylitis, 652
- Chrysotherapy. *See* Gold
- Climate, effects on arthritis, 329
- Coagulation, in gout, 322
- Colchicine
 - action of, 303
 - in gout, 620–621, 624
 - intravenous, 123
 - in rheumatoid arthritis, 329
- Colitis, ulcerative, arthritis with, 318
- Collagen
 - antibody to, 119
 - bone, and urinary hydroxyproline, 293
 - hydrolysis by enzymes, 291
 - metabolism in lathyrism, 321
 - nucleolar binding serum globulin in disease, 313
 - in synovial tissue, 74
 - tissue aging studies, 308
- Colostrum, gamma globulin excretion in, 662
- Complement
 - effects on electron transport, 642
 - reversal of effect by rheumatoid euglobulin, 642
 - rheumatoid factor inhibiting fixation reaction, 127
 - serum levels in rheumatic fever, 656
- Connective tissue
 - cortisol affecting, 111
 - diseases, 323
 - in Hashimoto's thyroiditis, 282
 - and scleroderma, 186
 - serologic findings in, 65
 - mucopolysaccharide formation in cell cultures, 105
 - permeability, and hyaluronic acid depolymerization, 107
 - pigmentation in alcaptonuria, 547–556
 - salicylates affecting, 111
- Copper, in synovial fluid, 442
- Correspondence, 280

- Cortisol
 binding in plasma and synovial fluid, 666
 effects on connective tissue, 111
 intra-articular injection, 666
- Costovertebral joints, in ankylosing spondylitis and rheumatoid arthritis, 359
- Creatinine clearance, zoxazolamine affecting, 464
- Cricoarytenoid joint, rheumatoid arthritis of, 102
- Cryoglobulins, 117
- Cryoprecipitation of lupus erythematosus sera, 289
- Cutaneous conditions. *See* Skin
- Cytoplasm of synovial cells, 73

hyaluronate of, 110
immunoelectrophoresis of proteins, 320
lipids in, 103, 176–182, 583–599
in pseudogout, 652
in Reiter's syndrome, 206
rheumatoid, ascorbic acid in, 634
rheumatoid factor in, 102, 316
salicylate concentrations in, 317
trace metals in, 439–444, 653
- Synovial membrane
blood supply in knee, 226–235
calcification in hyperparathyroidism, 237–248
in Reiter's syndrome, 197, 205
- Synovial tissue
electron microscopy of, 70–78
microvascular lesions in biopsies, 116
- Synovitis, experimental production of, 295
- T-1824 disappearance rate, in amyloidosis, 288
- Tandearil therapy, 416
- Tendon
aging, 644
foot lesions, in rheumatoid arthritis, 27
- Tests
fluorescent test for antinuclear antibodies, 407–409, 636, 640
injection test for carpal tunnel syndrome, 658
latex fixation. *See* Latex tests
serologic, for rheumatoid disease, 55–68, 115, 122
sheep cell agglutination, 57, 61–68, 115, 284
- Thiophenylpyrazolidine, long-term, in gout, 384–395
- Thrombocytopenia from chrysotherapy, D-penicillamine in, 638
- Thymus, in immunobiology, 646
- Thyroiditis, connective tissue disorders with, 282
- Tietze's syndrome, 261–267
- Toes, in rheumatoid arthritis, 24, 25
- Tophaceous gout, chronic, 627–628
- Tranquilizers, use of, 417
- Transaminases, in synovial fluid, 328
- Triamcinolone therapy, 415
- Tridione, lupus erythematosus after, 303
- Triglycerides, in synovial fluid, 178
- Triphosphates, nucleoside, biosynthesis in cartilage, 107
- Tryptophane metabolite excretion in rheumatoid arthritis, 658
- Tumor
mast-cell, heparin synthesis in, 657
plasma-cell, protein synthesis in, 309
- Ulcers, skin, in lupus erythematosus, 284
- Ultraviolet radiation, and inhibition of protease release, 126
- Uralem therapy, 417, 628
- Urate
serum and urinary, zoxazolamine affecting, 459–464
sodium injections, 111, 295, 307
- Uric acid
amino acids affecting, in gout, 113
diurnal variation in excretion, 635
excretion after RNA feeding, 646
hyperuricemia in male Filipinos, 144–154
probenecid affecting, in gout, 285
salivary, in gout, 109
serum levels in relatives of patients with gout, 315
- Uricosuric agents
effects on phenolsulfonphthalein excretion tests, 310
in gout, long-term therapy, 384–395

- Uridine triphosphate biosynthesis, in cartilage, 107
- Urinary tract
 - lithiasis, in zoxazolamine therapy,* 469-470
 - in Reiter's syndrome, 204
- Urokon, binding by serum in rheumatic disease, 297, 316
- Vacuoles, in synovial cell, 74
- Vascular conditions
 - coagulation in gout, 322
 - mesenteric arteritis with rheumatoid arthritis, 311
 - microcirculatory effects of macromolecular substances, 310
 - microvascular lesions
 - in biopsies, frozen specimens of, 116
 - in osteoarthritis and rheumatoid arthritis, 305
 - in psoriasis, 304
 - peripheral circulatory effects of aspirin, 660
 - polyarteritis, serologic findings in, 65
 - in Reiter's syndrome, 206
 - in rheumatoid arthritis, 101
 - in scleroderma, 188
- Vertebral conditions. *See* Spine
- Viscosity of serum, in rheumatoid arthritis, 320
- Vitallium mold arthroplasty of hip, 37-54
- Vitamin A
 - hypervitaminosis
 - and hydrocortisone, 327
 - and immune mechanisms, 665
 - and inhibition of protease release, 126
 - skin hyperreactivity in lupus erythematosus, 665
- Water, distribution of, salicylates affecting, 281
- Wrist, arthrodesis of, 290
- Zoxazolamine therapy, in gout, 384-395, 417, 457-475, 628
